

# Data Workshop

This on-site, three-hour Data Workshop is designed to engage district and school staff in examining their student (CHKS), staff (CSSS), and parent (CSPS) CalSCHLS data.

The costs of the Workshop is determined by the California Department of Education and for the 2019-2020 school year those costs are \$125 per hour for preparation, presentation, and travel time plus travel expenses such as mileage, parking, taxi, airfare, lodging, and per diem (for meals) as applicable.

WestEd will provide paper copies of worksheets to be used during the Workshop and will provide electronic access to:

- PDF of presentation slide deck
- PDF of workshop agenda
- PDF of workshop worksheets

Participants will *bring their laptops and their most recent CalSCHLS reports (for all three surveys CHKS, CSSS, and CSPS, if available)*.

## Workshop Topics:

### Why Your CalSCHLS Data Is Important

- State Requirements – TUPE, LCAP, Safety Plans, Bullying and Suicide Prevention
- Student well-being – Academic, physical, social, emotional and mental
- School climate – Supports, engagement, safety and achievement

### What Your CalSCHLS Data can Tell You About Your Multi-tiered Systems of Supports for Students

- Which universal supports are robust?
- Which have room for growth?
- Which call for action?

### How You Can Use Your CalSCHLS Data

- Disaggregated Data
- Trend Data
- School Comparisons
- Resources

### Participants Will

- Select one support to focus on during the workshop
- Use the data to support their choice
- Review resources for taking action on their CalSCHLS data
- Decide on one action to take after the workshop
- Create a plan for taking action
