How are the School Climate Indicators Calculated?

The school climate indicators provide school-level descriptions of several factors that are known to influence learning success in schools.

Most of the subdomain scores are calculated by averaging the percentage of respondents who report the top two response categories on the survey items that comprise each scale. For example, “School Connectedness,” “Academic Motivation,” “Promotion of Parental Involvement,” and “Facilities Upkeep” are computed by averaging the percentage of respondents who report “Agree” or “Strongly agree” on the survey items that comprise the scale; “Caring Adult Relationships,” “High Expectations,” and “Meaningful Participation” are calculated by averaging the percentage of respondents who report “Pretty much true” or “Very much true” on the survey items that comprise the scale; and “Perceived School Safety” is measured by the percentage of students who report that they feel “Safe” or “Very safe” at school.

“Two or Fewer Absences per Month” – a measure of low chronic absenteeism – is measured by the percentage of students who report missing two or fewer days of school in the month prior to the survey. “Low Violence Victimization,” “No Harassment,” “No Mean Rumors,” and “No Fear of Getting Beaten Up” represent the percentage of students who reported not being victimized.

A value of 60 on the “School Connectedness” indicator, for example, means that on average, students report “Agree” or “Strongly agree” on three of the five “School Connectedness” survey items.

All subdomains and survey items that comprise the scales/measures are listed below.

(1) School Connectedness (5 items)

- o I feel close to people at/from this school.

Explanation of Other Indicators

Results are provided on selected key student- and staff-reported school climate items as a complement to the school climate indicators. Staff indicators are provided to facilitate comparisons between student and staff perceptions. While most staff indicators are in the high range (80-100%), it is important to compare how staff perceptions might differ from students to identify areas for improvements.

Staff results are not included if less than 50% of staff or less than five staff members provided data. Student- and staff-reported school climate measures and their sources are described below.

Selected Student-Reported School Climate Measures (CHKS)

- Try hard on school work – “agree” or “strongly agree” that I try hard to make sure I am good at school work.
- Three or more absences per month – missed school on three or more days in the past 30 days.
- Feel a part of the school – “agree” or “strongly agree” that I am a part of this school.
- School is really boring – agree that school is really boring (rating of 7 or higher on a 0–10 scale).
- School is worthless and a waste of time – agree that school is worthless and a waste of time (rating of 7 or higher on a 0–10 scale).
- Harassed or bullied at school – harassed or bullied on school property in the past 12 months for any of the following reasons: (a) race, ethnicity, or national origin; (b) religion; (c) gender; (d) you are gay, lesbian, or bisexual or someone thought you were; (e) a physical or mental disability; (f) you are an immigrant or someone thought you were; (g) any other reason.
- Parents feel welcome to participate at this school – “agree” or “strongly agree” that parents feel welcome to participate at this school.
- School is usually clean and tidy – “agree” or “strongly agree” that school is usually clean and tidy.
- Experienced chronic sadness/hopelessness – felt sad or hopeless almost every day for two weeks or more during the past 12 months.
